## SIMPLE LOOMS SERIES

Weaving is fun, relaxing, and extremely satisfying—we think everybody should do it! During these workshops on simple looms, we'll explore various ways to make fabric using affordable and accessible looms that you can create and use on your own.

### Simple Looms: Intro to Backstrap Weaving

Backstrap looms are simple in construction, but can be used to create an immense variety of complex patterns. In this type of weaving, still used in various forms around the world today, the weaver's own body becomes part of the loom, with a strap around the back that lets the weaver hold one end of the warp and control the warp tension. During this workshop, you will weave your own backstrap, and go home with your very own complete backstrap loom. All tools and materials will be provided. If the weather is nice, we'll work on the shaded back patio, so you may want to dress appropriately. Also, the best way to do this kind of weaving is by sitting on the ground, so you may want to bring a pillow or cushion to sit on; however, we can easily make accommodations for those who do not wish to sit on the ground. Appropriate for all levels.

**4-hour workshop**

**Minimum: \$165 for up to three students, \$55 per student thereafter (\$35 + \$20 materials)  
(Maximum of 6 students.)**

### Simple Looms: Frame Loom + Making T-shirt Yarn (Boucherouite Rug)

All tools and materials will be provided for your use during the workshop, but if you have any old fabric and/or t-shirts laying around, feel free to bring those to use in your weaving. Appropriate for all levels.

In this workshop, we'll explore circular weaving on a cardboard loom and the use of Rya knots to make a small shoulder bag, which you'll take home with you. All tools and materials will be provided for you, but if you have any yarn to add to make your bag super-colorful, feel free to bring it (natural materials preferred). Appropriate for all levels.

## HERE'S HOW YOU+2 WORKS:

- See a workshop you'd like to take, but the timing doesn't work for you? Find some friends (two or more—up to 6 to 9 total, depending on the workshop) to take it with you and we can arrange to teach any workshop in our catalog at a time convenient for you.
- There is a minimum charge, based on three people taking the workshop, and an additional per-person fee above three people—these are exactly the same as our regular workshop rates. Fees depend on the particular workshop, and all fees are paid in advance. (These fees are listed with each workshop description.)
- This is a great option to participate in a more customized class, to arrange your own private girls' night out, to have a fun family activity, or to create a team-building experience for your workplace.
- If you'd like (and for an additional fee), we can also build in time in our workshop space for additional activities that you want to plan, making this the perfect option for your private parties (birthday parties, wedding showers, baby showers, and such). Some workshop topics can even be scaled up and done in the place of your choosing—family reunion, anyone?
- Browse through this Workshop Catalog for a listing of our offerings. Then contact us to set up a workshop time. It's that simple. Please leave at least two weeks ahead of your desired workshop date, to be sure to allow us time to prepare for your workshop and purchase any needed supplies.
- All workshop fees (registration and materials) must be paid by two weeks before your scheduled workshop. If you must cancel your workshop after this time, you will receive a 50% refund up until 24 hours in advance of your scheduled workshop. After that, we are unable to refund your workshop fees.
